

Brian Green

From the home screen, where would you click to find the different styling categories?
(Give step by step instructions)

After opening the app I would click on the three lines at the top to open up a menu with categories and select the desired category

Are there any actions that you would like to accomplish that you cannot not?

I see a submit your style option and video options leaving me to believe that I or other will be able to upload videos. If that is the case I would like to see a subscribe option and a Direct message option

How would you log in to the application? (Give step by step instructions)

Open the app
Tap on the three lines at the top left
Tap login and proceed to put in login information

To upload your own video, what would you do? (Give step by step instructions)

After opening the app, tap on the video icon at under the "Submit Your Style" box

How do you return to the Home screen from the Categories screen? (Give step by step instructions)

To return to the home screen I would exit my subcategories and tap on the three lines to close the categories window to seen me back to the home screen

How many options are there for you to perform a search?

There are two options

Where are they located?

There are two options located at the top right and at the bottom of the sub window for categories

On the category screen, how would you access videos for Braiding? (Give step by step instructions)

I would select video and select the category for the type of style I am looking for

On the home screen, how would you view the remaining list of videos in the Favorites section? (Give step by step instructions)

From the home screen the favorited videos are located at the top of the app. So simply favorite videos and they will be added to favorites on the home screen

How would you find our company's phone number? (Give step by step instructions)

To find the companies phone number I'll open categories and find contact us highlighted in a darker orange at the bottom of the menu and tap on the icon

What do you like about this application/design? (Be as descriptive as possible)

I appreciate that my Favorites would be the first videos I see as I open the app. I appreciate that because humans are not perfect so if I were to accidentally close the app I would be able to get right back to my favorites.

What do you dislike? (Be as descriptive as possible)

The color scheme could be changed or have a menu option to where we can set up our own color scheme. I would also like to see a switch in the most recent and top stylist categories because a lot of people upload junk and I would rather see the best before I continue to browse through other users.

I also failed to see a subscribe option and messages to stay in touch with my favorite stylist videos and also contact them for tips.
